Note 1: This code change proposal addresses the scope and application of the International Energy Code and the International Plumbing Code. The action taken by the Energy Conservation Code Committee on this proposal coupled with the final action taken at the 2016 Public Comment Hearings and subsequent Online Governmental Consensus Vote will be limited to an advisory recommendation to the ICC Board of Directors who will determine the final disposition on this proposed change in accordance with Section 1.3 of CP28, which stipulates that the ICC Board of Directors determines the scope of the I-Codes.

Note 2: As stated in the posted 2016 Group B Public Comment Hearing Agenda, ADM94-16 was dealt with procedurally by dividing the code change proposal into a multiple part code change proposal; with each referenced standard receiving a public comment being dealt with as a separate part in conjunction with the submitted public comment. In addition, the updates to some of the referenced standards were As Modified by the committee, as shown in the 2016 Report of Committee Action Hearing. The actions taken on proposed updates to the referenced standards listed in ADM94-16 were As Submitted except as noted below:

2016 RESULTS OF THE ONLINE GOVERNMENTAL CONSENSUS VOTE

Updated 2/2/2017

See highlighted corrections

The Final Action on code change proposals considered at the Public Comment Hearing (PCH) in the 2016 Group B Cycle were determined solely by the results of the OGCV because a hand/standing vote count was taken at the PCH for all of these code changes in accordance with Sections 7.5.8.7 and 7.5.8.8 of CP28 Code Development. Therefore, in accordance with CP28 Section 10.1, these code changes do not have a corresponding PCH vote tally and the votes of the PCH will not be combined with the corresponding OGCV ballot. In accordance with published OGCV procedures, this required a minimum of 20 OGCV votes to be cast for each code change proposal in order for the OGCV to be considered a successful voting measure. If the OGCV vote total is less than 20 for an individual proposal, the Final Action for that proposal is the action taken at the Public Comment Hearing (see Note 4).

In accordance with Section 10.1 of CP 28, the validation committee has certified the OGCV voting results and the ICC Board has verified a valid voting process. The following are the results of the OGCV, published in accordance with Section 10.4 of CP 28.

Final Action notes:

1. The Final Action for each code change is noted in **bold** in the second column and reflects the OGCV Results also noted in **bold**, except as indicated by note 3.
2. The “required majority” is in accordance with Section 8.1 of CP 28.
3. For those code changes where the required majority was not achieved (e.g. ADM2-16 Part IV), the Final Action on the code change is D in accordance with Section 10.3 of CP 28.
4. In all cases, the required minimum of 20 OGCV votes to be cast in order for the OGCV to be a successful voting measure was exceeded.
5. As stated in the posted 2016 Group B Public Comment Hearing Agenda, ADM94-16 was dealt with procedurally by dividing the code change proposal into a multiple part code change proposal, with each referenced standard receiving a public comment being dealt with as a separate part in conjunction with the submitted public comment. Each separate part was therefore balloted on the OGCV as a separate code change proposal. For more details, see the [Discussion Guide, ADM 94](#).
6. The referenced standard was not included in the original list of standards proposed for update in ADM94; therefore, there was no committee action recorded.
7. This code change proposal addresses the scope and application of the International Energy Code and the International Plumbing Code. The action taken by the Energy Conservation Code Committee on this proposal coupled with the final action taken at the 2016 Public Comment Hearings and subsequent Online Governmental Consensus Vote will be limited to an advisory recommendation to the ICC Board of Directors who will determine the final disposition on this proposed change in accordance with Section 1.3 of CP28, which stipulates that the ICC Board of Directors determines the scope of the I-Codes.
8. Corrections made on 2/2/2017 are highlighted.
