

**ICC-1300
Residential Seismic Assessment and
Retrofit Standard Consensus Committee
(IS-RSARC)**

Posted Date: October 2020

SCOPE:

This standard committee will have primary responsibility for development of a comprehensive Standard to provide a methodology for the identification, evaluation and retrofit of specific known vulnerabilities for one- and two-family wood light-frame residential buildings (including townhouses) up to two (2) stories in height. Also included is the evaluation and retrofit of masonry chimneys attached to 3 story buildings. Development of the assessment and retrofit provisions are applicable to dwellings located in Seismic Design Categories B through E and will include the use of the best available seismic numerical modeling tools and engineering practices to assist in development of assessment methods and to identify retrofit criteria to best achieve targeted performance objectives. Use of the provisions are anticipated to improve earthquake performance but is not intended to prevent earthquake damage.

MEMBERSHIP

Chair: Kelly Cobeen

Vice Chair: Howard Cook

Omar Amini, PhD [C]

Postdoctoral Research Associate
USDA Forest Products Laboratory
Madison, WI

Kelly Cobeen, SE [D]

Associate Principal
Wiss Janney Elstner Associates
Emeryville, CA

Michael Cochran, SE [D]

Vice President
Thornton Tomasetti
Los Angeles, CA

Howard Cook [B]

Owner
Bay Area Retrofit, Inc.
Albany, CA

J. Daniel Dolan, PE, FASCE [D]

Professor and Director of Codes and Standards
Washington State University
Pullman, WA

Gary J. Ehrlich, PE [B]

Director, Construction Codes & Standards
National Association of Home Builders
Washington, DC

Oscar Iniguez, PE, SE [H]

Structural Engineer Senior
City of San Diego
San Diego, CA

Philip Line, PE [C]

Director, Structural Engineering
American Wood Council
Leesburg, VA

Ronald Lynn, CBO [H]

Rep: Southern Nevada Chapter of ICC
