

## Changes for Contractor/Trades Examinations

Effective January 1, 2018, the Assessment Center has expanded its offerings of National Contractor/Trades examination titles for code years 2012 and 2015.

At the same time, many jurisdiction-specific examination programs will be transitioned to the National standard examination program. The exams will be equivalent in content to the jurisdiction-specific exams, and will provide a simple registration process and exams that are recognized across the nation. In addition, ICC will offer select 2009 titles through our new proctored online testing system, PRONTO.

**Which National Contractor/Trades Exam do I take if my jurisdiction exam is no longer being offered?**

Below is a complete list of former jurisdiction-specific titles and their current National equivalents.

Former Exam ID	State	Former Exam Title	New ID	New Examination Title
<b>ALABAMA</b>
