GEW157-14
702.6.1

Proponent: Shawn Strausbaugh, representing Arlington County, VA (sstrausbaugh@arlingtonva.us)

Revise as follows:

702.6.1 Clothes washers. Clothes washers of the type in the ENERGY STAR program as defined in “ENERGY STAR® Program Requirements, Product Specification for Clothes Washers, Eligibility Criteria,” shall have a water factor (WF) not exceeding 6.0 \(\leq 5.4\) and a modified energy factor (MEF) of not less than 2.0.

Reason: This change is to coordinate this specific IgCC section with ASHRAE 189.1 -2011. The reduction from a 6.0 water factor to a 5.4 water factor is 10% below the Energy Star requirements.

Cost Impact: Will not increase the cost of construction.
