GEW171-14

709.6

Proponent: Lisa Reiheld, Canadian Standards Association, representing CSA Group (lisa.reiheld@csagroup.org)

Revise as follows:

709.6 Approved components and materials. Piping, plumbing components, and material used in the reclaimed water systems shall be manufactured of material approved for the intended application as specified in the International Plumbing Code.

Reason: Adding reference to components and materials as those specified in IPC makes this section consistent with other sections referencing IPC requirements.

Cost Impact: Will not increase the cost of construction.
