

The Association of Minnesota Building Officials

Building officials administering the building, mechanical, plumbing and electrical codes and
Committed to serving the public interest and the professionals that ensure safety in the building
environment.

Dear ICC Nominating Committee Members,

Today, the AMBO Board of Directors and I strongly recommend a proven leader, Greg Wheeler, who has been on the board of directors since 2012 and is prepared to serve as the next ICC Vice President.

Greg has code experience and involvement at the local level, state level, and national level since 1984 serving on various boards and committees. Greg's greatest commitment and life's passion is to the safety and quality of the Built Environment and to the growth and success of the International Code Council. He realizes the value of raising the profile of all first preventers, gaining the trust of elected leaders and using that trust to protect ICC's most important stake holders: Our citizens. Life safety is critical, and so are the economic value and sustainability of these buildings and the neighborhoods and communities they are built in.

I hope you take the opportunity to meet with Greg Wheeler between now and the vote at the ICC Annual Conference in Richmond, Virginia. We think he will continue to bring tremendous value, compassion and vision to ICC's leadership team. Please give Greg your support!

Sincerely,

AMBO Board Chair, Tom Bakken
