

### High School Technical Training Program (HSTTP) Cost Overview

The following is a breakdown of estimated costs associated with operating the High School Technical Training Program:

<b>Annual School ICC Membership</b>	<b>\$150.00</b>
-------------------------------------	-----------------

Membership includes:

1. A onetime offer of a complementary soft cover IRC codebook (normal cost \$144); year shall be determined by code year adopted by local jurisdiction. Application should indicate the instructor as the contact person.
2. Instructor will receive an ICC membership card and establish an ICC account allowing them to receive all ICC updates concerning webinars, material updates, code changes, newsletters, job vacancies around the country along with a list of other constructed information.

<b>IRC Study Companion</b>	<b>\$48.50 (available in PDF for \$46.00)</b>
----------------------------	---

1. The IRC Study Companion establishes a curriculum separating the codebook into sessions with 35 practice questions after each session.
2. Instructors can use the diagrams and commentaries from the Study Companion to assist in teaching and explaining construction techniques as they relate to the building codes.
3. We encourage schools to discourage writing in the Study Companion, allowing schools to reuse this book, drastically reducing the cost of the program. (See cost example below).

<b>Annual Student ICC Membership</b>	<b>\$25.00</b>
--------------------------------------	----------------

Student membership includes:

1. A onetime offer of a complementary soft cover codebook (normal cost \$144.00), year determined by the instructor, to be used throughout their high school career.
2. Students completing the membership application will receive an ICC membership card and information to establish their access to the ICC website.
3. Access to the final exam and a Certificate of Completion after passing the exam with a score of 70% or better. Students are encouraged to obtain one or more Certificates of Completion during the yearlong membership at no additional cost.
4. If the school offers the program over the course of multiple school years, students will re-new their ICC membership for a \$25 fee each year to continue to receive all services outlined above.

**NOTE:** Students memberships do not require the application if schools or parents do not wish to provide additional information. Instructors submit student's name (as they should appear on the Certificate of Completion) with test scores to receive the Certificate of Completion.

<b>Example of Annual Cost to Operate HSTTP</b>	
Annual School ICC Membership	\$150.00
25 Student Memberships @ \$25.00 each	\$625.00
25 IRC Study Companions @ \$48.50 each	\$1,212.50
<b>Total Cost for first year of HSTTP</b>	<b>\$1,987.50</b>
Reuse IRC Study Companions second year	-\$1,212.50
<b>Total Annual Cost of HSTTP for second year</b>	<b>\$775.00</b>

\*Minimal shipping cost to added, schools provide tax-exempt certificate to ICC to eliminate sales tax.
