**Subject:** Appeal of Staff Action re: IECC 2021 edition code staff actions

Greetings,

The Northwest Gas Association (NWGA) supports the American Gas Association and the American Public Gas Association appeal of staff action involving four code change proposals including RE107-19, RE126-19, RE147-19, CE217-19. The appeal was submitted by the above referenced associations on May 5, 2020.

In short, The NWGA contends that staff improperly processed these proposals as detailed in the AGA/APGA appeal; that the proposals create a competitive disadvantage for end-use natural gas applications and that they should not be included in the next edition of IECC.

Thank you for your consideration,

*Dan Kirschner*, Executive Director
