Subject: RE: IECC: Timing for Board Vote Implementation

Good Afternoon Sir,

I too wanted to thank you for meeting with the NEMA High Performance Building Council yesterday. While a few our Members may be expressing some concerns or uncertainty about the proposed change to the IECC development process, I can assure you that NEMA will ultimately support whatever decision the ICC Board makes and will continue to be fully engaged in the development process and unwavering advocates for the adoption and enforcement of the IECC in every state and jurisdiction in the nation.

Please have a nice weekend and take care,

BRYAN
