

The International Code Council (ICC) is pleased to announce an agreement with SkillsUSA's TeamWorks National Competition and the ICC's High School Technical Training Program (HSTTP). This year, SkillsUSA National TeamWorks project will be based on the 2015 International Residential Code. The TeamWorks plans will be code compliant and provide consistency between the trades. Plans will consist of architectural, plumbing, electrical and masonry drawings with detail sheets for clarity. To learn more about SkillsUSA TeamWorks, visit <http://teamworks-info.com>. For more information on this partnership and the plans themselves, contact Jim Ellwood at [jellwood@iccsafe.org](mailto:jellwood@iccsafe.org).
