2019 Group B Appeals Board
c/o Mike Pfeiffer
Senior Vice President of Technical Services
International Code Council

RE: Letter of support for the outcome of the 2019 Group B Code Cycle.

Dear Mr. Pfeiffer:

This letter is to serve as our support for the outcome of the Governmental Member Voting and result of the 2019 Group B Code Cycle. The City of Fort Collins Sustainability Services works closely with Community Development and Neighborhood Services and our Fort Collins Utilities to ensure that departmental policy, regulation and code align in ways to support progress on our climate action goals. We feel that Governmental Member participation in the code cycle is important in meeting the desires of our community and our local government. The role of our department as an ICC Governmental Member is a role we see as valuable and we plan to continue participation in.

The City of Fort Collins has established a citywide, community-supported ambitious climate plan and energy policy and understands that building codes are a critical component in advancing community and stakeholder desires and a healthy climate future. We are committed to supporting, and playing a role in the success of this and future code processes, knowing that it will not only benefit our efforts but those of a great many other jurisdictions.

We fully support the results of the Group B Code Cycle voting outcomes as they stand.

Sincerely,

A handwritten signature in black ink that reads "Lucinda R. Smith".

Lucinda Smith
Director, Environmental Services Department
