**Subject:** Feedback - International Energy Conservation Code (IECC) and Ch. 11 of the International Residential Code (IRC) using the ICC standards process

Gentlemen,

We believe it's in the best interest of the cities that states represent to have full voting rights, as before this recommendation, and believe ICC should not have the ability to reject a membership application or the ability to remove a membership unless the parameters for removal are clearly delineated.

The public comment period should be extended to 90 days. A 30-day comment period over a Christmas and New Year's holiday to receive comments is overly restrictive.

Respectfully,  
Eddy

Eddy Trevino, P.E., CEM  
Director, State Energy Conservation Office
