

**REVISION RECORD
FOR THE STATE OF CALIFORNIA

SUPPLEMENT**

July 1, 2018

2016 Title 24, Part 12, California Referenced Standards Code

General Information:

1. The date of this supplement is for identification purposes only. See the History Note Appendix at the end of the code.
2. This supplement is issued by the California Building Standards Commission in order to provide new and/or replacement pages containing recently adopted provisions for California Code of Regulations, Title 24, Part 12, of the 2016 *California Referenced Standards Code*. Instructions are provided below.
3. Health and Safety Code Section 18938.5 establishes that only building standards in effect at the time of the application for a building permit may be applied to the project plans and construction. This rule applies to both adoptions of building standards for Title 24 by the California Building Standards Commission and local adoptions and ordinances imposing building standards. The new building standards provided with the enclosed blue supplement pages must not be enforced before the effective date.
4. Not all code text on the enclosed blue supplement pages is a new building standard. New, amended, or repealed building standards are identified by margin symbols. An explanation of margin symbols is provided in the code before the table of contents.
5. You may wish to retain the superseded material with this revision record so that the prior wording of any section can be easily ascertained.

PREFACE

This document is the Part 12 of thirteen parts of the official triennial compilation and publication of the adoptions, amendments and repeal of administrative regulations to *California Code of Regulations, Title 24*, also referred to as the *California Building Standards Code*. This part is known as the *California Referenced Standards Code*.

The *California Building Standards Code* is published in its entirety every three years by order of the California legislature, with supplements published in intervening years. The California legislature delegated authority to various state agencies, boards, commissions and departments to create building regulations to implement the State's statutes. These building regulations, or standards, have the same force of law, and take effect 180 days after their publication unless otherwise stipulated. The *California Building Standards Code* applies to occupancies in the State of California as annotated.

A city, county, or city and county may establish more restrictive building standards reasonably necessary because of local climatic, geological or topographical conditions. Findings of the local condition(s) and the adopted local building standard(s) must be filed with the California Building Standards Commission to become effective and may not be effective sooner than the effective date of this edition of the *California Building Standards Code*. Local building standards that were adopted and applicable to previous editions of the *California Building Standards Code* do not apply to this edition without appropriate adoption and the required filing.

The referenced standards contained in Part 12 are developed by the state agencies listed herein. The Part 12 Cross Reference Table herein identifies the state agency to which the standard applies, the subject of the standard, and the provisions in other parts of Title 24 where the application of the standard is required.

Should you find publication (e.g., typographical) errors or inconsistencies in this code or wish to offer comments toward improving its format, please address your comments to:

ACKNOWLEDGEMENTS

The 2016 *California Building Standards Code* (Code) was developed through the outstanding collaborative efforts of the Department of Housing and Community Development, Division of State Architect, Office of the State Fire Marshal, Office of Statewide Health Planning and Development, California Energy Commission, California Department of Public Health, California State Lands Commission, Board of State and Community Corrections, and the California Building Standards Commission (Commission).

This collaborative effort included the assistance of the Commission's Code Advisory Committees and many other volunteers who worked tirelessly to assist the Commission in the production of this Code.

Governor Edmund G. Brown Jr.

Members of the California Building Standards Commission

Secretary Marybel Batjer – Chair

Steven Winkel – Vice-Chair

James Barthman

Larry Booth

D. Malcolm Carson

Elley Klausbruckner

Erick Mikiten

Raj Patel

Cheryl Roberts

Peter Santillan

Kent Sasaki

Jim McGowan – Executive Director

Michael L. Nearman – Deputy Executive Director

HISTORY NOTE APPENDIX

California Referenced Standards Code Title 24, Part 12, California Code of Regulations (CCR)

HISTORY:

For prior code history, see the History Note Appendix to the *California Referenced Standards Code*, 2013 Triennial Edition, effective January 1, 2014.

1. (DSA-SS 04/15) Amendments to the 2016 *California Referenced Standards Code*, California Code of Regulations, Title 24, Part 12. Effective on January 1, 2017.
2. (BSC 04/16) Nonregulatory changes to the *California Referenced Standards Code*, California Code of Regulations, Title 24, Part 12. Effective on July 1, 2018.

2015 I-Code Essentials

This helpful series uses a straightforward, focused approach to explore code requirements with non-code language, allowing readers to gain confidence in their understanding of the material. Each book is an invaluable companion guide to the 2015 IBC, IRC or IFC for both new and experienced code users.

- Detailed full-color illustrations enhance comprehension of code provisions
- A focused, concise approach facilitates understanding of the essential code provisions
- References to corresponding code sections provide added value as companion guides to the 2015 I-Codes
- Glossary of code and construction terms clarifies their meaning in the context of the code

A. BUILDING CODE ESSENTIALS: BASED ON THE 2015 INTERNATIONAL BUILDING CODE

Explores those code provisions essential to understanding the application of the IBC in an easy-to-read format. The user-friendly approach of the text simplifies critical concepts so users can achieve a more complete understanding of the code's intent. Full-color illustrations, examples and simplified tables assist the reader in visualizing the code requirements. This up-to-date, step-by-step guide's topic organization reflects the intent of the IBC and facilitates understanding and application of the code provisions.

SOFT COVER #4031S15

PDF DOWNLOAD #8950P596

B. RESIDENTIAL CODE ESSENTIALS: BASED ON THE 2015 INTERNATIONAL RESIDENTIAL CODE

Explains those code provisions essential to understanding the application of the IRC to the most commonly encountered building practices. The information is presented in a user-friendly manner with an emphasis on technical accuracy and clear non-code language. Full-color illustrations, examples and simplified tables assist the reader in visualizing the code requirements.

SOFT COVER #4131S15

PDF DOWNLOAD #8950P59

C. FIRE CODE ESSENTIALS: BASED ON THE 2015 INTERNATIONAL FIRE CODE

Focuses on the essential provisions of the IFC for controlling ignition sources and fire hazards, fire department access to buildings, building uses and processes, fire protection and life safety systems, special processes and uses and hazardous materials.
